

# CLINICAL SITE INFORMATION FORM (CSIF)

## *APTA Department of Physical Therapy Education*

Revised January 2006

### INTRODUCTION:

The primary purpose of the Clinical Site Information Form (CSIF) is for Physical Therapist (PT) and Physical Therapist Assistant (PTA) academic programs to collect information from clinical education sites to:

- Facilitate clinical site selection,
- Assist in student placements,
- Assess the learning experiences and clinical practice opportunities available to students; and
- Provide assistance with completion of documentation required for accreditation.

The CSIF is divided into two sections:

- Part I: Information for Academic Programs (pages 4-16)
  - Information About the Clinical Site (pages 4-6)
  - Information About the Clinical Teaching Faculty (pages 7-10)
  - Information About the Physical Therapy Service (pages 10-12)
  - Information About the Clinical Education Experience (pages 13-16)
- Part II: Information for Students (pages 17-20)

Duplication of requested information is kept to a minimum except when separation of Part I and Part II of the CSIF would omit critical information needed by both students and the academic program. The CSIF is also designed using a check-off format wherever possible to reduce the amount of time required for completion.

## DIRECTIONS FOR COMPLETION:

To complete the CSIF go to APTA's website at under “**Education Programs,**” click on “Clinical” and choose “Clinical Site Information Form.” This document is available as a Word document.

1. **Save the CSIF on your computer** before entering your facility’s information. The title should be the clinical site’s zip code, clinical site’s name, and the date (e.g., 90210BevHillsRehab10-26-2005). Using this format for titling the document allows the users to quickly identify the facility and most recent version of the CSIF from a folder. Saving the document will preserve the original copy on the disk or hard drive, allowing for ease in updating the document as changes in the clinical site information occurs.
2. **Complete the CSIF thoroughly and accurately.** Use the tab key or arrow keys to move to the desired blank space. The form is comprised of a series of tables to enable use of the tab key for quicker data entry. Use the Comment section to provide addition information as needed.
3. **Save the completed CSIF.**
4. **E-mail** the completed CSIF to each academic program with whom the clinic affiliates (accepts students).
5. In addition, to develop and maintain an accurate and comprehensive national database of clinical education sites, **e-mail** a copy of the completed CSIF Word document to the Department of Physical Therapy Education at [kristinestoneley@apta.org](mailto:kristinestoneley@apta.org).
6. **Update the CSIF on an annual basis** to assist in maintaining accurate and relevant information about your physical therapy service for academic programs, students, and the national database.

### **What should I do if my physical therapy service is associated with multiple satellite sites that also provide clinical learning experiences?**

If your physical therapy service is associated with multiple satellite sites that offer a variety of clinical learning experiences, such as an acute care hospital that also provides clinical rotations at associated sports medicine and long-term care facilities, provide information regarding the primary clinical site for the clinical experience on **page 4**. Complete **page 4**, to provide essential information on all additional clinical sites or satellites associated with the primary clinical site. ***Please note that if the satellite site(s) offering a clinical experience differs from the primary clinical site, a separate CSIF must be completed for each satellite site. Additionally, if any of the satellite sites have a different CCCE, an abbreviated resume must be completed for each individual serving as CCCE.***

### **What should I do if specific items are not applicable to my clinical site or I need to further clarify a response?**

If specific items on the CSIF do not apply to your clinical education site at the time you are completing the form, please leave the item(s) blank. Provide additional information and/or comments in the Comment box associated with the item.

**Student is expected to know anatomy, basic evaluation techniques(ROM, MMT, Screening, Special Tests, modalities, and basic exercises) in a competent manner before applying for this affiliation. This is a great opportunity for a student that plans on working with the performing arts population in the future. This learning experience is fast paced and is better for a student that is a good learner and is able to retain information quickly. A packet of PAPT-specific exercises and dance medicine literature will be sent to students accepted into our internship/clinical affiliation. They are expected to read and be ready to discuss the information prior to their arrival at our clinic. This is a challenging yet, fulfilling intership experience. We encourage motivated, confident, and strong orthopedic classroom/clinical experienced students to apply.**
